Weight	
Net product weight (structure + print)	10.8 kg
Print weight	0.6 kg
Structure weight	11.4 kg
Transport bag weight	1.5 kg
Gross weight (product with packaging)	14.5 kg
Maximum load capacity	30 kg
Material	
Print	Polyester material, coated, 175 g/m ²
Structure / housing material	Pneumatic system made of aluminium
Countertop and base	PVC
Other	
Printing technology	Sublimation
Fire resistance class of print	B1
Product category	Equipment for indoor use.

IMPORTANT INFORMATION

- The product is intended for temporary display use.
- It is recommended to use protective interlayers and store the print under stable conditions: dry room (humidity approx. 40–50%), room temperature 15–25°C. Prints should be stored in a way that minimises the risk of bending, creasing or pressure and should not be exposed to direct sunlight.
